

Dear Linda,

I'm returning this card to you as confirmation that I sent the Clean Water questionnaire/commitment card to all four candidates for Governor. I will also let you know if any of the cards that I sent to the candidates are returned to me. You will follow up with the candidates to encourage them to return the cards. Before the primaries, you will tally the responses received by all of us, and send a report to everyone who returns this card to you.

This is one way that we can get the candidates on the record regarding their commitment to clean water and then hold the next Governor accountable for following through with his promises.
